4 From the statements submitted by the Inspector General of Prisons, it will be seen that the daily average strength of the prisoners of the Ct M Station is between 88.3 and 87.4. Out of the no. on the 31st March last 21 were employed on out door work.

5. The Inspector General is not in favour of sending any men to the Curzon Hospital. He says that out-door employment is only a premium on vice and that one paid Coolie would do as much work as turned out by 5 prisoners and that he will reduce the no. to would stop the out-door work altogether if Govt allow him to do so. change and placed the matter before Dr Benson on his return from leave. He stated that out door labour could not be entirely abolished however desirable it might be, but that the rules on the subject might be altered to such an extent as to meet the requirements of the State when the Jail Manual was revised. This was recorded by Government with the observation that the revision of the Jail Manual with suitable provisions as regard the better employment of prison labour was awaited.

Sir,

With reference to letter No.1279 dated the 2nd Instant from the First Assistant to the Hon'ble the Resident in Mysore (copy enclosed) asking me whether 10 prisoners can be spared to go and clean up the compounds of the Lady Curzon and Bowring Hospitals, I have the honor to state that we can spare no more prisoners for outdoor gangs.

Sir,

Adverting to your Docket No.J.2749/Pris.61-2 dated the 29th March 1905, enquiring what the daily average strength of the prisoners received from the Civil and Military Station has been during the last month (February 1905) and how they have been employed and whether ten of them cannot be spared for out door work &ca., I have the honor to submit the accompanying statements received from the Superintendent Bangalore Central Jail, furnishing the information called for and to state my opinion that in dealing with the matter in question the greatest care should be exercised not to suggest to the Civil and Military authorities the idea that because their prisoners are incarcerated in the Mysore Jails, they have therefore some right to free labour for their institutions in the shape of prisoners from these Jails. The prisoners are received from the Civil and Military Station into these Jails and with their employment the Civil and Military Station authorities should have nothing whatever to do.

2. But apart from this, I go upon the general principle that out door employment of prisoners is alike unprofitable to Government and useless as a discipline to the prisoners and I have consistently opposed the extension of out door

employment. It is a premium on vice. No easier life can be imagined for this class of individuals than employment in out door gangs especially to private houses and Hospitals &ca. It means a lazy "loaf" there and back, and when there, doing little or nothing. Do I not see it every day at the Victoria Hospital? Two paid coolies would do as much as 10 prisoners. So it is simply demoralizing, and that is no the object of imprisonment I hope.

3. It has often struck me to enquire whether the improve m e n t of the morals of the prisoners crosses the mind of Governments, and yet that ought to be the supreme object of imprisonment. If that object is not kept in view, then imprisonment amounts to a mere form. A man commits a crime the Penal Code lays down the equivalent in a period of imprisonment; but to actually improve the man morally does not seem to be the uppermost idea.

4. It may be said that the cleanly surroundings in the Jail, the good food, the medical care, the humanely light employment cannot but have an elevating effect. Perhaps it is so but can only be so with a certain class of individua The real vagabond laughs at all this and enjoys it, and is made callous by it. He says why should I be moral, if bein immoral secures all this luxury.

4. My position therefore is this that our uppermost idea should be to improve the individual and that a slothful luxurious life, such as out door work does not improve but debase. Keep the prisoners in the healthy surroundings but give them organised employment - make them feel that it is their duty to do a certain honest task daily and that ther is no getting out of the performance of this task. If this is properly carried out they will begin to feel that they may as well live honestly when they get out, for work will be just as irksome in the Jail as out side it. There are other ways in which morals might be seen to but it does no
